

Accessing Calibration File Information in TIS

The following is required to access Calibration File Information:

- TIS Professional Level Subscription
- Techstream Software v4.21.002 or later (includes Calibration Update Wizard v8.8)

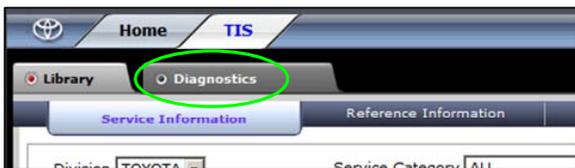

1. Log in to <https://techinfo.toyota.com> with your username and password

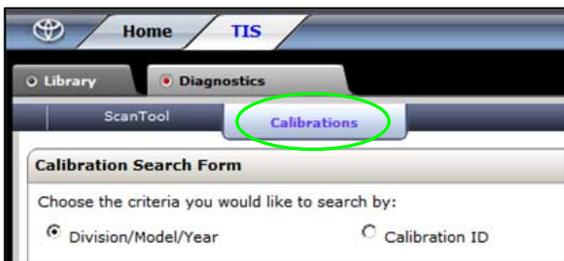

2. Select the **TIS** tab from the home page

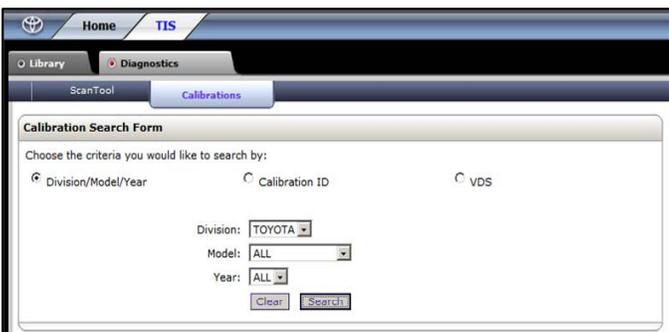

3. Select the **Diagnostics** tab

4. Select the **Calibrations** tab

5. Use the vehicle information available to search for calibrations:

6. When the calibration search results are displayed, select the appropriate Service Bulletin based on the vehicle's condition and current ECU calibrations

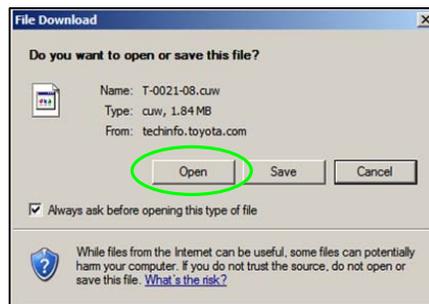

Current ECU CAL ID	New ECU CAL ID	Document Title (Release Date)	Year / Model / VDS	Market
30661000	30661100	T-SB-0255-08 Rev1: 08-09 Camry (2AZ-FE): Vibration Between 35 - 45 MPH (2008-08-19)	2008 / Camry / BE46K 2009 / Camry / BE46K	Mexico
30661000	30661100	T-SB-0254-08 Rev1: 08-09 Camry; ECM Calibration: Enhancement to Shifting Performance & Smoothness (2008-08-19)	2008 / Camry / BE46K 2009 / Camry / BE46K	Mexico

NOTE: Be sure to follow all steps indicated in the Service Bulletin for ECU reprogramming instructions to avoid damage to the vehicle

7. Select the New Calibration ID located within the Service Bulletin

MODEL YEAR	MODEL	PREVIOUS CALIBRATION ID	NEW CALIBRATION ID	VDS
2008 2009	Camry	30661000	30661100	BE46K

8. Select **Open** for the file download

9. The Calibration Update Wizard will now open. Please follow the on screen instructions provided.
