 - Hancock County was completed with fully navigable coverage.
 - Residential subdivisions were added/updated in the following counties: Tate (2) and Tangipahoa (2).
 - Residential subdivisions were added/updated in the following county: Alcorn (9).

- Tate County was completed with fully navigable coverage.
- Transport Verified Road level(s) 3 and 4 coverage now available for Hancock and Tate counties.
- Transport Verified Road level(s) 3 and 4 coverage now available in Tunica County.
- **Missouri:**
- A new interchange has been added to the database at MO-U and US-61 in Lincoln County, MO. The new roads, attributes and signs were Field Verified.
- A new interchange has been added to the database at MO-U and US-61 in Lincoln County, MO. The new roads, attributes and signs were Field Verified.
- A new path for US-65 has been Field Verified for roads shape, attributes, naming and addressing in Dallas County, MO. The new path is just west of the old path, renamed S Ash St, and stretches from MO-EE to just south of Buffalo, MO. The old path has been downgraded to a Road level(s) 5.
- A new Road level(s) 4 roundabout has been added to MO-DD just west of SE 341st Rd in Johnson County, MO. The alignment of MO-DD has been shifted south as well in the immediate area.
- A new Road level(s) 5 interchange has been Field Verified for new roads, attributes, naming and signs at NE Strother Rd and I-470 in Lee's Summit, MO.
- Based on Field Verification, a new Road level(s) 5 interchange has been added to US-71 at N Case Pky in Cass County, MO.
- Based on Field Verification, a new Road level(s) 5 ramp has been added from Spirit of St Louis Blvd to eastbound I-64 in Chesterfield, MO.
- Based on Field Verification, E 39th St S has been updated to a multi-lane path between NW Pink Hill Rd and NW RD Mize Rd in Independence, MO.
- Based on Field Verification, Exit 5B on I-29/I-35 in North Kansas City, MO has been reconfigured. A new Road level(s) 5 ramp has been added in the northbound direction to provide access to E 16th Ave. This replaces the cloverleaf ramp that was previously located here.
- Based on Field Verification, Horizons Dr in Riverside, MO has been extended and now connects to MO-9. As a result, the interchange at I-635 and Horizon Dr has been upgraded to a Road level(s) 4.
- Based on Field Verification, S Jackson Dr has been added as a new multi-lane section between E 37th Ter S and E RD Mize Rd to connect 2 preexisting segments of S Jackson Dr in Independence, MO.
- Based on Field Verification, S Little Blue Pky has been added as a multi-lane path between E 39th St S and E RD Mize Rd in Independence, MO.
- Based on Field Verification, US-36 has been updated to a multi-lane road from Monroe City, MO west to the Clarence, MO.
- Based on Field Verification, US-50 has been updated to a multi-lane path from MO-K in Moniteau County, MO to California, MO. This includes a new Road level(s) 4 interchange at MO-87. With this update, US-50 no longer goes through California, MO. It passed to the south of town now.

- Based on Field Verification, US-65 has been updated to a multi digitized road from Red Top Rd in Greene County, MO to the MO-CC interchange in Fair Grove, MO. All roads, attributes, naming and exit signs have been updated in the database.
- Christian County, Missouri was completed with fully navigable coverage.
- Field verified and modified highway signs inside Lambert-St Louis Int'l Airport.
- Field verified and upgraded a 13.5-mile stretch of US-67 to multi-lane in Madison County.
- Field verified and upgraded a 7.6-mile stretch of US-60 to multi-lane in Shannon County.
- From Mountain View, MO to Birch Tree, MO, US-60 has been updated to a multi digitized highway. Roads and attributes have been Field Verified for these changes.
- In Barton County, MO, there are three new interchanges that have been Field Verified and coded on US-71. Road level(s) 5 interchanges now exist at MO-C and MO-DD. A Road level(s) 4 interchange was built at MO-126.
- In Lee's Summit, MO, a new level 4 connector road between NW Blue Pky and NW Pryor Rd has been Field Verified for new roads and attributes.
- In Madison County, MO, US-67 has been updated through Field Verification. US-67 has had roads and attributes associated with new multi-lane roads from the MO-E interchange to just south of MO-C.
- In Missouri Additional names and addresses were added in following counties: Harrison, Henry, Lawrence and Nodaway.
- In Springfield, MO, the interchange at N Glenstone Ave and I-44 (Exit 80) has been redesigned. The cloverleaf ramps have been eliminated and N Glenstone Ave has been updated to a multi-lane road through the interchange and short distance on the north and south side of the interchange.
- In St Louis, MO, construction on I-64 has completed. Changes to roads, attributes and signs for I-64 and Exits 30-36A have been Field Verified. In addition with the completion of construction, I-64 has been returned to a Road level(s) 2 between I-270 and I-70/I-55 split. I-170 has also been returned to a Road level(s) 2 between I-64 and I-70.
- In St Peters, MO construction closed status has been removed from MO-94 near Harvester Rd and has been updated with some new roads and attributes.
- In Wayne County, MO, US-67 has been Field Verified and updated to a multi-lane road from CR- 543 north for about a mile. In addition, US-67 has been updated from MO-A to just northwest of Greenville, MO. This is a new path for US-67 and no longer passes through Greenville. A section of the old path, now Front St, in Greenville from MO-E to Maple St has been downgraded to Road level(s) 4. The remaining sections of the old path for US-67 have been downgraded to Road level(s) 5 roads.
- MO-13 is now a multi-lane path from E 565th Rd to E 490th Rd in Polk County, MO. The multi-lane path parallels what used to be the southbound path of MO-13. The old northbound path of MO-13 has been downgraded to Road level(s) 5 and has been renamed S 138th Rd.
- Municipal city boundaries were updated in St Louis County.
- Municipal city boundaries were updated in the following counties in Missouri: Barry, Dent, Lawrence and Stone.
- The interchange at National Ave and US-60 in Springfield, MO has been updated to a Diverging Diamond Interchange. Field verification of roads, attributes and signs have taken place here.

- Through Field Verification, US-36 has had roads and attributes associated with new multi-lane roads updated from CR-269 in Marion County, MO to just west of County Road 223 in Monroe County, MO.
- Through Field Verification, US-36 has had roads and attributes associated with new multi-lane roads updated from just east Shelby 209 in Shelby County, MO to Kellogg Ave in Macon County, MO. As part of this update there is a new Road level(s) 4 interchange at MO-151 in Clarence, MO.
- Through Field Verification, US-40 has been updated in St Charles County, MO from S Callahan Rd to the Lake St Louis Blvd interchange. Included in this update are new ramps to and from US-40 westbound at Prospect Rd. This also completes the controlled access highway to I-70 which previously ended at Lake St Louis Blvd.
- Transport Verified Road level(s) 3 and 4 coverage now available in Taney County.
- Updated 1 subdivision in Pulaski County, MO.

- **Montana:**

- Additional names and addresses were added in Beaverhead, Fergus, Lincoln, Mineral, Pondera, Powell, Silver Bow, and Valley counties.
- Additional names and addresses were added in Gallatin and Yellowstone counties.
- Additional names and addresses were added in Lewis and Clark and Missoula counties.
- Additional names, addresses, and roads were added in Flathead County as part of upgrading rural counties.
- Additional names, addresses, and roads were added in Lake County as part of upgrading rural counties.
- Additional names, addresses, and roads were added in numerous counties in Montana as part of upgrading rural counties.
- Additional names, addresses, and roads were added in Richland County as part of upgrading rural counties.
- Flathead, Lake and Missoula County: Updated roads and attributes along US-93 due to a realignment of the highway through Evaro and Arlee; and changes around MT-200, to include an overpass which was added at US-93 and Church Dr.
- Jefferson County: The intersection of US-287 and MT-2 has been reconfigured.
- Lewis and Clark County: Modified the administrative boundaries of Helena and East Helena, Montana to include recent annexations.
- Ravalli County: Roads and conditions on US-93 are under construction north of Hamilton. The roads of the completed sections have been updated to reflect ongoing construction.
- Yellowstone County: Several new roundabouts have been added throughout the City of Billings. King Ave was widened and upgraded to multi-lane representation. Aronson Rd was upgraded to a Road level(s) 4 from Airport Rd to Hill Top Rd.
- Yellowstone County: Two new roundabouts were added on Shiloh Rd in Billings. Moved Road level(s) 4 network from King Ave and Monad Rd to 20th St, a newly added eastern portion of King Ave and Gable Rd.
- Yellowstone County: Upgraded roads and attributes on Airport Rd between MT-3 and US-87 in Billings. Added a new ramp complex on Airport Rd at Aronson Rd. Added a roundabout along Airport Rd at the entrance to Billings-Logan International Airport.

- **Nebraska:**

- Added new hospital POI and polygon, Bellevue Medical Center, in Sarpy County.
- Additional names and addresses were added in following counties in Nebraska: Antelope, Cass, Chase, Otoe and Saline.
- Field verified and upgraded US-275/Veterans Memorial Bridge to multi-lane in Douglas County.
- In Douglas County, NE, the Methodist Women's Hospital has been added to the database.
- Municipal city boundaries were updated in the following counties in Nebraska: Lancaster.

- **Nevada:**

- A new interchange was added at I-80 and Nevada Pacific Parkway in Lyon County.
- Added the Mike O'Callaghan-Pat Tillman Memorial Bridge as part of the completion of the Hoover Dam Bypass project along US-93 in Clark County, between NV-172 and the Arizona-Nevada state border. This portion of US-93 is now Road level(s) 1. Added a new interchange at US-93 and NV-172 (Exit 2). The portion of road leading from the newly constructed section of US-93 at Exit 2 to the Hoover Dam has been changed to NV-172 and downgraded from Road level(s) 1 to Road level(s) 5.
- Additional names and addresses were added in Elko County.
- Additional names and addresses were added in Humboldt and Lander counties.
- Additional names, addresses, and roads were added in numerous counties in Nevada as part of upgrading rural counties.
- An exit ramp was added from eastbound US-95 to S Martin L King Boulevard in Clark County.
- City Parkway was added to the database in Clark County, replacing D Street. The new road connects exit 43 of northbound I-15 to W Bonanza Road.
- I-15 Express Lane (Road level(s) 1) was added between E Desert Inn Road and W Russell Road in Clark County.
- Ramps were modified at the intersection of CR-215 and Far Hills Avenue in Clark County.
- Scenic route named Las Vegas Boulevard Scenic Route was added in Nevada.
- The Las Vegas City Center project in Clark County was updated, including the addition of roads and Points of Interest.
- US-395 was extended from US-50 to Fairview Drive in Carson City. Fairview Drive was upgraded to Road level(s) 2 between S Carson Street and US-395. N/S Carson Street was downgraded to Road level(s) 4 between US-395 and Fairview Drive. E Williams Street was also downgraded to Road level(s) 4 between US-395 and N Carson Street.
- US-95 was changed to Multi-lane between Airport Road and Loran Station Road and between Kidwell Hanger Road and Palm Gardens Drive in Clark County.
- W Galleria Drive was changed to Multi-lane and Road level(s) 4 between N Stephanie Street and N Gibson Road in Clark County. An interchange between I-515 and W Galleria Drive was also added.
- Walkways were included for parks in Las Vegas. Additional navigable roads were added when required for connectivity of the walkways.

- **New Hampshire:**

- Additional names and addresses were added in Grafton County.

- Additional names, addresses, and roads were added in Coos and Sullivan counties in New Hampshire as part of upgrading rural counties.
- Adjusted roads along 1-293/Everett Tpke which also included the adjustment of Exit 5 ramps and the addition of turn lane roads.
- E911 Addressing was completed in New Hampshire as part of ongoing maintenance.
- Entrance ramp at I-93 Exit 5 has been reconfigured to more accurately reflect reality in Rockingham County.
- Exit 12 ramps on Spaulding Turnpike were adjusted in Strafford County. The ramps were modified due to ongoing construction for multi-lane expansion on this highway. Construction will continue to be monitored in this area.
- I-93 Southbound Exit 5 on and off ramps in Londonderry, Rockingham County were reconfigured to reflect new construction.
- Moved hamlet POI for Willey House to a more accurate location and added Willey House Historical Site as a tourist attraction POI in Carroll County.
- New separately digitized high speed toll lanes and toll structures were added to I-95 in Rockingham County. These are EZ Pass Lanes that allow drivers to pass at higher speeds through the toll booths in both directions. Ramps were also adjusted in this toll area along with lane counts and lane markings.
- Ramps at I-93 Exit 1 in Salem, Rockingham County have been adjusted to more accurately reflect reality.
- Signs were updated at the Manchester-Boston Regional Airport, along with road network changes to the parking garage entrance in Rockingham County.
- The ferry route for the M/V Sophie C Ferry line was updated in Belknap County.
- **New Jersey:**
- Added new ramp roads and updated existing ramps (including naming, signage, and roads adjustment) between I-78 and Garden State Pky in Union County. Exit 142B was added on northbound Garden State Pky, while Exit 142B southbound on the GSP was adjusted due to new construction on that ramp. The ramps leading to I-78 East and to N Union Ave were renumbered accordingly. Signs were also updated on all ramps involving changes. There is ongoing construction at this interchange which is being closely monitored.
- Added new subdivision starting at Four Seasons Blvd in Passaic County.
- Added ramp connection from Pascack Rd to the Garden State Parkway in Bergen County. Also in this area, added construction closed conditions to the old northbound toll segment that is now closed (just after the new on-ramp). It is now no charge for northbound on this section, but southbound is still a toll charge. Construction is ongoing on the northbound toll section and will be monitored.
- Added Road level(s) 3 entrance ramps from CR-602/Roosevelt Ave to the New Jersey Turnpike at Exit 12 in Middlesex County. Signs, Road level(s), Lane elevations and naming were updated accordingly.
- Added Road level(s) 5 ramps to/from High St near the State St/RT-440 interchange in Middlesex County. New roads was added for a segment of High St which was extended north from near Long Ferry Rd to State St. Other ramp roads were also adjusted at this interchange to more accurately reflect reality. Naming, addressing and signage were all updated as a result.
- Additional names and addresses were added in Hunterdon County.

- Adjusted exit ramps off exit 12 on NJ Turnpike to improve roads accuracy in Middlesex County. This included changing a section of RT-602/Roosevelt Ave from single-lane to multi-lane at the exit.
- Englewood Hospital and Medical Center was updated for roads and POI placement in Bergen County. Some roads were added and others adjusted at the hospital complex. The POIs for the hospital Main Entrance and for the hospital ER were moved to more accurate locations.
- Extended the Shark River water feature where it crosses with RT-18 in Monmouth County to better reflect reality.
- Extensive update of roads and attributes in Bergen County was completed.
- Jersey Shore University Medical Center was updated for roads and POI placement in Ocean County. Some roads were added and others adjusted at the hospital complex. The POIs for the hospital Main Entrance and for the hospital ER were moved to more accurate locations.
- Meadowlands Hospital Medical Center was adjusted for roads and POI placement in Hudson County. A new one-way gated road was added and the POI for the hospital Main Entrance was moved to this more accurate location.
- New Road level(s) 2 ramp roads were added from the toll at I-95 to RT-3 West in East Rutherford, Bergen County.
- Roads, names and addresses were added in New Jersey as part of New Jersey Natural Gas project updating.
- Scenic routes named Delaware River Scenic and Millstone Valley Scenic were added in New Jersey.
- Somerset Medical Center was updated for roads and POI placement in Somerset County. Some roads were added and others adjusted at the hospital complex. The POI for the hospital ER was moved to a more accurate location. Also, the hospital polygon was adjusted as it no longer extends to Lincoln Avenue.
- The Access Characteristics on many Parkways with commercial vehicle restrictions in New York, New Jersey, and Connecticut were updated so that Delivery vehicles are not allowed. Trucks had already been restricted from these roads, but a clarification has been made to also restrict Delivery vehicles.
- The ramp split point between I-80 West and I-287 was moved to more accurately reflect reality in Morris County.
- The roads of Exit 52 from I-78 West to Garden State Parkway South were adjusted to more accurately reflect reality in Union County. Construction is ongoing and being monitored in this area.
- The Road level(s) 4 exit ramp to Delancy St was removed from US 1&9 Express Lane northbound in Essex County. This ramp has been permanently closed by NJ DOT.
- Transport Verified Road level(s) 3 and 4 coverage now available for Ocean County.
- Valley Hospital was updated for roads and POI placement in Bergen County. Some roads were added and others adjusted at the hospital complex. The POIs for the hospital Main Entrance and for the hospital ER were moved to more accurate locations.
- Walkways were included for parks in the Jersey City market. Additional navigable roads were added when required for connectivity of the walkways.
- **New Mexico:**
- Additional names and addresses were added in Colfax, Curry, Hidalgo and Sierra counties.

- Additional names and addresses were added in San Juan County.
 - Additional names, addresses, and roads were added in numerous counties in New Mexico as part of upgrading rural counties.
 - Bernalillo County: Modified roads and attributes to reflect new ramp configuration at I-40 and Exit 149 at Paseo Del Volcan NW.
 - Cibola County: Added roundabouts at Exit 102 on I-25.
 - Cibola County: Modified roads and attributes to reflect significant changes to ramp configuration at I-40 and Exit 102 at Acoma Sky City Casino.
 - Municipal city boundaries were updated in Bernalillo County.
 - San Juan County: Upgraded portions of US-491 to multi-lane representation.
 - Sandoval County: Added additional navigation attributes to all Road level(s) 3 and Road level(s) 4 roads.
 - Santa Fe County: Upgraded E Jemez Rd to Road level(s) 3 from NM-4 to NM-501. Downgraded NM-502 from Road level(s) 3 to Road level(s) 4.
 - Scenic route named Dry Cimarron Scenic Route was added in New Mexico.
 - Taos County: Added additional navigation attributes to Road level(s) 4 roads. Cruz Alta Rd was downgraded to FC 5 NM-Taos County-Taos: Downgraded Cruz Alta Rd between NM-585 and NM-68.
- **New York:**
 - A Construction Closed condition was added to N Cross Road/CR-37 while bridge construction is under way in Dutchess County. A new Road level(s) 4 route was added on S Cross Road just to the south to connect US-9 and RT-9G.
 - A new Road level(s) 3 roundabout has been Field Verified for roads and attributes and has been added to the intersection of S Main St and RT-33 in Batavia, NY.
 - A section of Main St/RT-299 between Paradies Ln and the I-87 overpass was changed from Multiple Digitization to Single-lane in Ulster County. All attributing and signage was updated accordingly.
 - Added Construction Closed conditions to the RT-9P bridge at the north end of the Saratoga Lake, between Regatta View Drive and Saratoga Lake Road. The bridge is scheduled to remain closed until at least the end of May, 2011. An alternate route exists on CR-67 to the north.
 - Added Express EZ-Pass lanes for northbound and southbound I-87 at the RT-17 interchange in Orange County. In addition, the exit ramp from RT-17 to I-87 southbound was extended to more accurately reflect reality.
 - Added new roundabout at the intersection of Watervliet Shaker Rd and Wolf Rd in Albany County.
 - Added new roundabout at the northern intersection of RT-40 and RT-29 in Washington County.
 - Added new subdivision "Meadowbrook Pointe" off of Corporate Dr in Nassau County.
 - Added pedestrian walkway across the Brooklyn Bridge from Tillary St to Centre St in New York and Kings Counties.
 - Added roads for a new subdivision located along US-9 in Saratoga County. The main roads involved are Landau Blvd, Phaeton Ln, and Venturra Ct.
 - Added synonym names of "New York City" and "NYC" to all the level 4 admins named "New York" that comprise New York City.

- Additional names and addresses were added in Albany, Clinton, Columbia, Delaware, Dutchess, Essex, Franklin, Greene, Herkimer, Montgomery, Nassau, New York, Orange, Putnam, Rensselaer, Rockland, Saratoga, Schenectady, Schoharie, Suffolk, Ulster, Warren, Washington, and Westchester Counties.
- Additional names and addresses were added in Clinton, Delaware, Fulton, Nassau, Putnam, Sullivan, Ulster, and Warren counties.
- Additional names, addresses, and roads were added in New York: Allegany, Broome, Cattaraugus, Chautauqua, Chemung, Chenango, Cortland, Erie, Genesee, Jefferson, Livingston, Madison, Monroe, Niagara, Oneida, Ontario, Orleans, Oswego, Saint Lawrence, Schuyler, Seneca, Tompkins, Wayne, Wyoming and Yates.
- Adjusted Long Lake polygon boundary to more accurately follow the shoreline in Hamilton County.
- Adjusted the lake cartography to reflect more accurate representation for both the Upper and Lower Saranac Lake in Franklin County.
- Adjusted the Mohegan Indian Reservation cartography to reflect more accurate representation in Litchfield County.
- Changed a section of the Belt Pky near Exit 23A to reflect Controlled Access attribution in Queens County. This is a location where the parkway splits for about a 1000 feet and then rejoins the highway.
- Changed name of PATEC Park to Marina Auto Stadium in Rochester, NY.
- Construction Closed conditions were added to Crown Point Bridge between Essex County New York and Addison County Vermont because the bridge is closed indefinitely for repairs. Road level(s) was downgraded from 3 to 4 on this route and the Road level(s) of Fort Ticonderoga-Larrabees Point ferry and connecting roads were upgraded to Road level(s) 3 as an alternate route until construction is completed.
- Divider coding was added to RT-42 near the Exit 105B off ramp of RT-17 in Sullivan County. As a result, Restricted Driving Maneuver logical conditions were removed at the end of the ramp.
- E911 Readdressing was completed for Hamilton County.
- Exit 14 Linden PI ramps were moved to reflect more accurate roads along I-678 in Queens County. Both ramps were moved south of original location. Construction is complete in this area.
- Extensive update of roads and attributes in downtown New York was completed.
- In Erie County, NY, Transit Rd has had updated roads and attributes that have been Field Verified.
- In Hamburg, NY, new Road level(s) 4 roundabouts have been Field Verified for roads, conditions and attributes at the intersection of Prospect Ave and US-62 and Legion Dr and US-62.
- In Niagara Falls, NY, Old Falls St is now open for use. The roads, attributes, naming and addressing have been Field Verified.
- In preparation for Limestone, NY dissolving on January 1, 2011, NAVTEQ has removed the polygonal reference of the town. The area will become part of the Town of Carrollton in Cattaraugus County.
- New roads were added for EZ Pass Tollbooth lanes on I-95 near Mile Marker 7 in Westchester County.

- New roads were added for EZ Pass Tollbooth lanes on I-95 near Mile Marker 7 in New Rochelle, Westchester County.
- Orleans County, New York was completed with fully navigable coverage.
- Recent construction updates to the I-84 and I-87 interchange were coded in Orange County, including new ramps to RT-300 and I-84 East and West. This also included a new EZ-PASS only lane from I-87 to RT-17K. CRF object coding was updated accordingly.
- RT-15 has been removed from the I-86 path from Exit 3 to Exit 44B in Steuben County, NY.
- The Access Characteristics on many Parkways with commercial vehicle restrictions in New York, New Jersey, and Connecticut were updated so that Delivery vehicles are not allowed. Trucks had already been restricted from these roads, but a clarification has been made to also restrict Delivery vehicles.
- The Addison-Crown Point Ferry was added as an alternate Road level(s) 3 route connecting Addison Vermont and Crown Point New York while the Crown Point Bridge is under construction for replacement. The ferry route is temporary and will be eliminated when the bridge is rebuilt. The bridge construction status will be closely monitored in the coming months.
- The Buffalo Skwy/RT-5 has been updated between Ohio St and Tiffit St in Buffalo, NY. The ramps to and from Fuhrmann Blvd have been eliminated. In addition, Fuhrmann Blvd has been eliminated on the east side of the Buffalo Skwy/RT-5 highway. New ramps have been built at Tiffit St to provide access to Fuhrmann Blvd. A new ramp has been added to access Ohio St in the northbound direction from the Buffalo Skwy/RT-5.
- The Hudson River boundary was adjusted to more accurately follow the shoreline from Coeymans Creek north for about 450 Meters in Albany County.
- The intersection of Gibbs Pond Rd, Rosevale Ave/CR-93, and Smithtown Blvd/CR-16 was adjusted so that Gibbs Pond Rd now connects directly across from Rosevale Ave/CR-93 in Suffolk County. In addition, Rosevale Ave/CR-93 was changed from Single-lane to Multiple Digitization to the south of Smithtown Blvd/CR-16. All associated attributing was updated accordingly.
- The intersection of McKinley Pky, Southwestern Blvd and Big Tree Rd in the Town of Hamburg, NY has been redesigned. New Field Verified roads, attributes, naming and addressing shows that Big Tree Rd has been changed to have individual intersections with Southwestern Blvd east and west of McKinley Pky.
- The intersection of Triangle Rd and RT-52 in Sullivan County was updated to remove an extra maneuver link and adjusted so that the roads more accurately reflect reality. The Multiple digitization of RT-52 was also extended about 100 yards near this intersection.
- The naming of US-52 (which is also Center Street) in Ellenville, Ulster County was changed to US-52-TRUCK to reflect the correct path for this truck route. US-52 for auto traffic still follows Canal Street which parallels Center Street.
- The navigable roads of Albany Shaker Road/CR-151 from Wolf Road to Margaret Drive were updated and surrounding roads reconfigured in Albany County. A new traffic pattern is in effect with a new roundabout at the intersection of Albany Shaker Road and the new location of Maxwell Road. Old Maxwell Road has been downgraded to a Road level(s) 5 and the Road level(s) 4 route now follows the new roads of Maxwell Road. New roads were also added for Field Drive and Serviceberry Avenue.
- The river polygon for a 35 mile long section of the Hudson River was adjusted to more accurately reflect reality in Warren County.

- The roads of South St was modified to more accurately reflect that the road travels underground and was given tunnel attribute coding in Manhattan, New York County.
- The South Hills Mall polygon was adjusted to more accurately reflect reality in Dutchess County and some POIs were added or updated at the mall.
- The split between US-9 and Loudonville Rd was moved about 75 yards north of Birch Hill Rd and ramp coding was removed from the first section of Loudonville Rd since this is not ramp but functions as a parallel road to US-9. Controlled Access coding was removed on US-9 from just north of Birch Hill Rd to the I-90 Interchange in Albany County.
- The Thompson Square Mall polygon was adjusted to more accurately reflect reality in Sullivan County and some POIs were added or updated at the mall.
- The upper level of the Queensboro Bridge was updated to disallow access to Trucks and Deliveries in Queens County.
- Transport Access Restrictions for weight limit of 15 tons were added to a 7 mile stretch of CR-18 from US-4 to RT-22A in Washington County.
- Two high profile sections of Broadway in New York City (Times Square and Herald Square) have had access characteristics updated. After an eight month temporary “tryout” period, they were officially changed to pedestrian only. Broadway is now pedestrian only from 47th St to 42nd St and from 35th St to 33rd St. As a result, a section of Broadway was changed from Road level(s) 4 to Road level(s) 5 from W 50th St to W 32nd St. One block of W 50th St (between Broadway and 7th Ave) and two blocks of 7th Ave (between W 50th and W 48th Sts) along with two blocks of W 32nd St (between 7th Ave and Broadway) were upgraded to Road level(s) 4 to accommodate changes for vehicular traffic.
