#### SG - Green Oil & Filter Service

The GG CarHuggers performed an oil change, we installed our high performance dual-stage oil filter and API approved re-refined or bio based oil. That's double good news because you simultaneously reused an existing resource and reduced demand for foreign oil. Nice! The minimal waste removal charge helps to fund sending your used oil back to the manufacturer to produce more earth friendly re-refined oil. Our closed loop process keeps reusing the same material without drilling any new oil wells or shipping in foreign oil on tankers that just happen to burn even more oil to get here!
